

Noah Richardson

Full-Stack Developer

Philadelphia, PA | ngregrichardson@gmail.com | (856) 364-1822

ABOUT

I started working with web development in 2016 and began branching into mobile development in early 2019. I am extremely passionate about the work I do and often have multiple personal projects that I work on during my free time. I focus on making the software I create as fast and as user friendly as possible. I love to merge my technical skills with my personality to create unique and accessible software products.

EXPERIENCE

Full-Stack Developer

TruckBux

Philadelphia, PA

Nov 2019 - Sep 2020

- Planned, developed, and tested UI/UX for a food truck vendor app rewrite using React Native, significantly upgrading the speeds and capabilities of the app as well as modernizing the UI.
- Integrated multiple delivery APIs into the TruckBux platform.
- Maintained multiple Android apps, as well as a back-end built on the Java Spring framework.

Lead Developer

TruckBux

Philadelphia, PA

Oct 2020 - Present

- Mentor incoming co-workers and manage all ongoing projects, including leading scrum meetings and approving pull requests.
- Rewrote a legacy Android and iOS app in React Native in a month and a half, updating the UI and adding features along the way.

EDUCATION

Drexel University

B.S. in Computer Science

2019 - Present

- Computer Programming I, II
- Comp & Info Design I, II, III
- Advanced Programming Tools and Techniques
- Mathematical Foundations in Computer Science
