Education

Drexel University
Bachelor of Science in Computer Science
Cumulative GPA: 3.83

Philadelphia, PA
Anticipated Graduation: June 2024

Technical Summary

- Languages: Javascript, Java, Dart, Python, HTML, CSS, Arduino
- Software: Node.js, React, React Native, Bootstrap, Flutter
- Operating Systems: Windows, Linux
- Databases: Access, MySQL, Firebase

Experience

TruckBux
Full Stack DeveloperPhiladelphia, PA
October 2019 - Current

- Planned, developed, and tested UI/UX for a food truck vendor app revamp using React Native, significantly upgrading the speeds and capabilities of the app as well as modernizing the UI.
- Integrated the Postmates Delivery API into the TruckBux platform
- Maintained multiple Android apps, as well as a back-end built on the Java Spring framework

Bootless Stageworks
Lighting Technician/Stage ManagerWilmington, DE
July 2012 - February 2020

- Hung, focused, and programmed the lights, working closely with the lighting designer and director to bring their visions to life
- Directed scene changes, managed props, and handled communications between the rest of the crew

Bishop Eustace Robotics Team
Software LeadPennsauken, NJ
September 2016 - May 2019

- Taught new team members the basics of programming in Java and introduced the libraries necessary for the FIRST Robotics Competition
- Wrote code without having a robot to test with and created new subsystems on the fly to test different parts of the robot
- Co-piloted the robot during competitions, while fixing any programming issues in between matches

Relevant Coursework

Computer Programming I, II
Comp & Info Design I, II
Calculus I, II

Advanced Programming Tools and Techniques
Mathematical Foundations in Computer Science

High School Honors and Awards

- Headmaster's List
- National Honor Society
- National Spanish Honor Society
- Tri-M Honor Society
